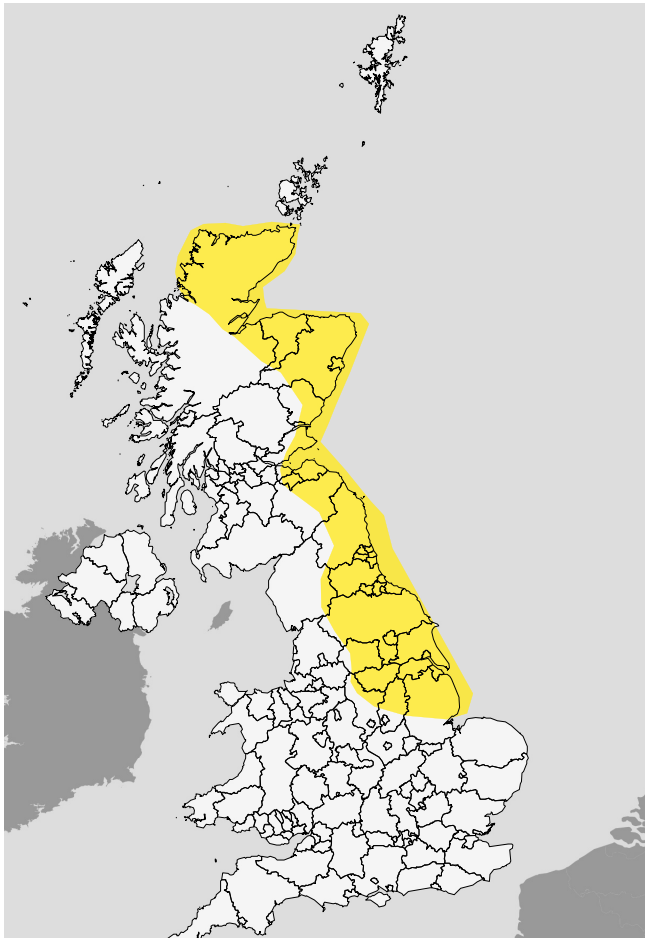
Yellow warning
Snow & Ice

Between
17:00 Wed 29 Nov 2023 and
11:00 Thu 30 Nov 2023



Showers, falling as snow inland, will lead to icy patches and hazardous conditions.

What to expect

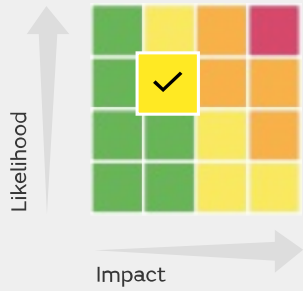
- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Wintry showers will continue to affect northern and eastern parts of Scotland and England overnight and into Thursday morning. These showers are likely to fall onto frozen surfaces allowing icy patches to form. Additionally, showers will fall as snow inland, with up to 2cm possible in places, perhaps as much as 5 cm over high ground.

Reason for update

The warning has been extended westwards and southwards across parts of England as wintry showers become more extensive for a time.



Medium likelihood of low impacts
